### THE SITUATION IN EGYPT.

In yesterday's issue we gave the first portion  
of M. de Guerville's article in the current  
number of the "Fortnightly Review" on the  
situation in Egypt. M. de Guerville's conclu-  
sions are as follows:

Those who know the real situation in Egypt  
can easily understand how almost the whole  
population, with the exception of an insignifi-  
cant minority, are satisfied and desire no  
change. It is enough to compare the present  
state of the country—even rapidly and superfi-  
cially—with that existing in 1882, to perceive  
the perfect satisfaction of all classes and the  
greatness of the work achieved by England; and  
the more profoundly this question is studied,  
the greater the admiration that must be accorded  
to Lord Cromer and to all those who during  
the past twenty-five years have worked under  
his orders at the regeneration of Egypt.

The situation of that country in 1882 may  
be briefly summed up in the following manner.

The Government was then in the hands of a  
band of rebels, at the head of whom was the  
cowardly and worthless colonel, Arabi. The  
exchequer was empty; Egypt owed (almost  
entirely to Europe) nearly five millions sterling.  
The revenue was insufficient to pay the  
interest on her debts, or even to meet the ex-  
penses of government. The public works were  
all in such a state of neglect and disuse as to  
be no longer of any service. Commerce was  
paralysed and industry at the last gasp. The  
fellahs, to whose labour Egypt owes her  
agricultural wealth, had stopped working, for,  
left at the mercy of the Pashas, who extorted  
from them everything possible down to the  
last farthing, they died of hunger whether  
they worked or not.

If we add that their leaders told the unfor-  
tunate people that their suffering all these  
privations was solely the fault of the Christian

devils who were exacting mountains of gold  
from Egypt, it is easy to see that fanaticism  
and poverty combined were helping to make  
the situation a critical one for Europeans.

It was into this fiery furnace that England  
entered and France refused to follow her.

Let us slip over an extract of a quarter  
of a century, during which we may imagine  
behind the lowered curtain the struggles and  
numberless difficulties, the antagonism of Eu-  
rope to be overcome, religious fanaticism to  
be quieted down, the patriotism of the upper  
classes to be lulled to rest—that feeling of  
hatred, fear, and resentment, cherished by a  
whole nation against the intruder whom they  
beheld coming like a conqueror, arms in hand  
—we can imagine it all.

This is now a tale of the past, and on the  
curtain being raised we behold a transfor-  
mation so marvellous, so grand, that it is  
almost incredible.

We find Egypt rich and prosperous; a  
great portion of her debt paid, an admirably-  
adjusted budget; her revenues increasing enor-  
mously, regularly every year—and that in the  
face of large and important public works,  
works which daily augment the wealth of the  
country. Agriculture is advancing by leaps  
and bounds, while commerce and industry  
develop and increase with a rapidity unpar-  
alleled in the history of the world. A well-  
organised network of railroads, steam naviga-  
tion, telegraphs, telephones and excellently  
maintained canals, spreads over the country.  
Schools of every kind have been opened—  
primary, secondary and higher schools, techni-  
cal, commercial, and medical schools. The fellah  
works quietly and happily on his land, and  
the townsman is growing rich, while business  
prosperity increasingly flows from one end of  
the country to the other. From the mouths of the  
Nile, from Alexandria to the great lakes of  
Central Africa, all across Egypt, Nubia, and  
the Sudan, peace and quiet reign everywhere.  
And—strange as it may seem—all these results  
have been obtained, not by increasing the  
taxes, but, on the contrary, by reducing and  
even in some cases abolishing them altogether.

In less than twenty-five years England has  
accomplished all this and much more still. She  
has effected the marvellous achievement of  
remaining in Egypt with the unanimous  
consent of the Powers of Europe, to the great  
satisfaction of the Egyptians themselves and  
the foreigners dwelling in Egypt, and finally  
of living there as a friend, almost as an ally,  
of France!

Anyone who had foretold this situation  
some years back would have been treated as  
an idiot or a madman, and it is unlikely that  
the English themselves ever expected to attain  
a result as satisfactory and complete as this.  
Egypt's prosperity is now well known to the  
world at large. The almost fabulous progress  
she has made from a material point of view is  
well known, but not so her equally great and  
still more surprising advance in a moral sense.  
The honesty of the Government in all its  
branches, the impartiality with which all  
abuses have been punished, and finally the  
honourable example which during five-and-  
twenty years the English have set before the  
Egyptians, have certainly borne good fruit. To  
be "honest" is no longer an empty expression  
on the banks of the Nile, and the entire popu-  
lation understands to-day what that word  
signifies. I think of how absolutely unknown  
it was in 1882! To sum up, Egypt and the  
Egyptian have now become clean, both phy-  
sically and morally. We may say that England  
has cleansed and disinfected them externally  
and internally.

Their whole life has been changed by this,  
and the change is visible even in their dwell-  
ings. Little by little they are altering their  
habits: sleeping in beds instead of lying on  
the ground, using forks instead of their fin-  
gers, changing their clothes, and—a miracle  
indeed!—allowing their women to catch a  
faint glimpse of emancipation. Yes, women  
are being better treated; are freer and happier  
and their future is beginning to look much  
less dark.

The members of the new generation are  
physically and mentally much in advance of  
their elders, but they would be greatly mistaken  
in considering themselves capable of directing  
the future destinies of Egypt alone and  
unaided.

Egypt, as I have pointed out elsewhere, is  
still one of those beautiful and attractive, but  
terribly delicate plants which cannot stand  
upright without a prop. This prop, the only  
one that suits the case, is England, or, rather,  
it is that excellent man Lord Cromer.

## MR. ROBERTSON AND CONSCRIPTION.

## (Gazette's Special Service.)

## LONDON, Friday.

Mr. J. M. Robertson, M.P., asked Sir Edward Grey last night in the House of Commons whether, in view of the fact that the system of conscription at present prevailing in the Egyptian Army, with its exemption from military service by means of purchase, led to the enrolment of unwilling recruits in the army, would not the Government advise the establishment of paid military service?

The Secretary of State for Foreign Affairs, in reply to Mr. Robertson, said that Lord Cromer, in the reports which had been cited, had given some reasons why the abolition of the present system of conscription would be inexpedient. The existing conditions in Egypt rendered it impossible to introduce a system similar to that prevailing in the case of the British Army. However, as would be seen in the Report of Lord Cromer, the subject continues to receive attention.

## FATHY BEY ZAGHLOUL'S APPOINTMENT.

Mr. Dillon, M.P., questioned Sir Edward Grey in regard to the appointment of Fathy Bey Zaghloul as Under Secretary of State to the Ministry of Justice. Sir Edward, in reply, said that there was no necessity for the British Government to exercise any interference in the promotion of that official.

## THE BANK OF EGYPT.

## STEADY EXPANSION.

A dividend of 6 per cent. for the half-year, making 10 per cent. for the year, and a bonus of 8 per cent., together equal to 20s. per share, was recommended in the report presented at the 20th ordinary meeting of this company, held at the office, 26, Old Broad street this day week. Mr. G. T. Biddulph moved its adoption. Although it did not show a great improvement on last year, whatever changes had taken place were to the good. There had been a great expansion of business in Egypt, and the new companies which had been started had entailed a great deal of speculation in shares. Then, again, there was a great increase of the value of land in Egypt. Last year there were one million cantars more cotton than in the previous year, and in Egypt the producer also sold for cash and not as in England. High prices ruled in September, and the growers consequently took advantage of them. That, he said, was the real reason for the active bullion operations at the end of the year. Lord Milner, who was well known and respected in Egypt through having been some years ago financial secretary to the Khedive, had agreed to become an additional director.

Lord Rathmore, who has just returned from Egypt, in seconding, said that the great preponderance of the business now being done in this country was of a sound character and would proceed upon its course, even if there were a few failures of individuals. The development of every kind was extraordinary, especially in the matter of the value of land. The report was adopted.

## THE SIRDAR.

As already announced, the Sirdar is expected in Cairo shortly from Khartoum. On his return South from Cairo the Sirdar will visit Port Sudan to inspect the great works now in progress there. His Excellency will also visit Bkwt, where he will probably spend the latter part of April and the early part of May, after which he will return to Khartoum.

It will be remembered that Bkwt is among the places which the Director of the Medical Department recommended as sites for hill stations, particularly for the women and children who cannot leave the Sudan during the summer months.

We now hear that a motor road will be opened to that place and that some young trees have been sent to be planted there.

## THE PILGRIMAGE.

The Quarantine Board has issued a notice to the effect that first class passengers arriving at Tor on pilgrim ships may land at Soes after having been isolated for five days at Tor camp. These passengers must embark either on postal steamers or Egyptian pilgrim vessels.

## ZIZINIA THEATRE.

We are not vain enough to suppose that any praise on our part should turn "I Pagliacci's" heads, but the fact remains that last night's production was by no means so uniformly delectable as that of last Tuesday. We do not for a moment contend that it was unsuccessful—that would be well-nigh impossible considering the affinity of casts to opera and opera to audience. But one could not help remarking a want of time and balance about the orchestra during most of the first act; and also that Sig. Baldassari hardly makes an adequate Silvio. Sig. de Marchi's Canio was as frolicsome and artistic as ever, though he was not quite in such good voice as on Tuesday. One more Sigra. Berlandi charmed us with her all-embracing voice and convincing acting and took her encore in Act I. with every success. Sig. Costa was again satisfactory, while Sig. Paltrieri, as Seppe, quite surpassed himself and won much and well-deserved applause.

## EGYPTIAN COTTON IN AMERICA.

## A LARGE AND GROWING DEMAND.

Another instance of the increasing appreciation of the value of Egyptian cotton in various parts of the world is to be found in the successful manner in which these varieties are now competing with American yarn in America itself. Mr. D.C. Roper has presented a report to the Department of Commerce and Labour at Washington on the supply and distribution of cotton, home and foreign grown, in the United States for the year ending August 31 last, and one of the most significant statistical tables accompanying the report is that showing the enormous increase since 1890 in the importation of Egyptian cotton for American mills.

Only a little over 10,000 500 lb. bales were required at American mills in 1890; while by 1906 the quantity imported reached 105,697 bales. From Peru in 1890 only 603 bales of cotton were imported. Last year the total was 6,397 bales. This growing demand for Egyptian and Peruvian cotton is due to its increasing use in the manufacture of yarns for thread and knit goods; and owing to the high price of wool, as a substitute for wool, in the manufacture of woollen goods. As the production of cotton in Egypt is not keeping pace with this growing demand from English and American mills, efforts are being made in the United States and in South America and also in India, to grow a fibre with the same characteristics from seed imported from Egypt.

Apparently to prevent the idea from gaining ground that Egyptian cotton is replacing the American grown staple, Mr. Roper explains that "it cannot be considered as an important rival of the upland staple of America, as the greatest demand for it is in the manufacture of fabrics requiring a smooth finish and a silky lustre."

The "Times" correspondent at Calcutta states that the Egyptian cotton in Sind has been seriously ravaged by bollworm that the yield is only one fifth of that expected. The quantity is excellent, and high prices have been obtained at auction, the total amount realized being 14 lakhs (£10,00,00).

## OIL FOR EGYPT.

## STANDARD OIL ENTERPRISE.

The great Standard Oil Trust of the United States intends to capture the oil trade of Egypt. A representative of the Trust has been in Egypt for some time arranging for installations at Alexandria and Port Said for the import of oil in bulk and as soon as the business gets under weigh the Trust expects to considerably reduce the cost of oil in this country. The reduction in price will, it is said, be enormous, for up to now the importers of oil here have been making huge profits.

## A NEW PORCELAIN COMPANY.

Mr. Nikitas Sinadinou, the founder and chairman of the board of directors of the Uffais Co. of Santorin, has arrived here to form a company of local capitalists to import Santorin porcelain into Egypt and the Sudan.

## THE MARIOUT RAILWAY.

According to the "Mir," the Khedivial Khassa, which had intended extending the Mariout Railway to the S wa Oasis, has now given up the scheme, the Khedive having observed during the course of his recent trip in the desert that the benefits to be gained by the proposed line would be trifling compared with the cost of the undertaking. The Khedive's railway will therefore not go beyond Marsa-Matrouh.

## THE KHEWIVE.

The Khedive went this morning from Koubbeh to Abdeen, where he granted audiences to some officials and notables and afterwards attended midday prayer at the palace mosque.

His Highness will shortly confer the Order of the Osmanieh (2nd class) on I-smail Pasha Sabry. The grade of Mirmiran is also expected to be conferred on both Yahya Bey Ibrahim, the new President of the Native Court of Appeal, and Ahmed Bey Afifi, President of the Mixed Court of Appeal. Fathy Bey Zaghloul will receive the same grade when he is definitely appointed Under Secretary of State to the Ministry of Justice.

## EGYPTIAN ARMY.

Capt. R.G. Shuter, D.S.O., of the Manchester Regiment, having reported his arrival in Egypt from England, has been taken on the strength of the Egyptian Army, from 24th January, with the rank of Bimbashi. He is posted to the 16th Battalion.

Lieutenant R. Mickleth, Royal Engineers, having reported his arrival in Egypt from England, has also been taken on the strength of the Egyptian Army, from 21st January, with the rank of Bimbashi. He is posted to the Sudan Government Railway.

El Bimbashi G. F. Rugg, Medical Corps, has been struck off the strength of the Egyptian Army, from February 10, 1907.

## Exposition de Chapeaux.

## ALEXANDRIA'S NEW HOTEL.

## INAUGURATION TO-MORROW.

It is a curious fact that though palatial and luxurious hotels are to be found throughout Egypt and even in the suburbs of Alexandria, the port itself is singularly deficient in similar first-class houses of accommodation. But in the Savoy Palace Hotel, which opens its doors to-morrow, the public will find a hostelry which will compare most advantageously with the best of those in Cairo and in Upper Egypt. It was only some seven months ago that this handsome house in Rosetta street, built some three years since for the late Baron Cumbo, was acquired by the Palace Hotels Company of Egypt, and within that time they have made such additions and structural alterations that now some 180 rooms are ready for immediate occupation. The former handsome facade of the house with its marble balconies and ornamentations have been left practically unaltered; but two great wings have been added at the back and the space between them has been transformed into a lofty and very spacious winter garden with a high glass domed roof, which as a lounge will prove one of the great attractions of the hotel. On the same ground floor and leading from the winter garden are the handsome reading and billiard rooms on the left; and on the right is the fine restaurant, which occupies the entire ground floor of the right wing. This restaurant is of very noble proportions and fine scheme of decoration, its elaborately moulded ceiling is studded with electric lights, and enormous gilt chandeliers also spring from the snow-white panels of the walls. A handsome crimson carpet covers the parquet floor, and the high stand of palms in the centre of the room surrounded by the numberless small tables with their dainty fittings give it a delightful air of comfort and well-being. The walls of the winter garden are also of snowy whiteness, palms and flowers and the pretty coloured one furniture supplying the requisite relief of colour.

On the same floor, but looking out upon Rosetta street, is the ladies' delightful drawing room daintily furnished in Louis XVI. style with tapestried furniture, mirrors and pictures, the dominant tone of colour being a restful green. The bar is also situated at the front of the house on the level of the street, and the usual offices of the management, toilette rooms both for ladies and gentlemen, are also on the ground floor. The commissariat department, kitchen, larders, cellars, and so forth are situated downstairs and must be visited to be properly appreciated. The kitchen is an immense space and most practical with its long rows of gleaming copper saucepans and utensils, and its huge stove, grill, etc., etc. The cool room occupies one corner of it, an enormous scullery another, while the remaining angles are devoted, one to patisserie making and the other to coffee. Eight white-clad cooks preside over operations here, while a host of useful myrmidons await their pleasure and behests. The store-room is connected with the kitchen and contains a vast supply of stores; and there are no less than four cellars stocked with some 300 different sorts of wines, liquors, beer and mineral waters.

A handsome marble staircase leads from the entrance hall to the floors above, the lift being situated close beside it. The bedrooms, which are fine, lofty apartments, are furnished from the stores rooms of either Maple & Co. of London fame or Krieger of Paris. There are some six private suites on the various floors situated at the corners of the house, each suite containing a fine double-bedded room with bay window, a dainty salon, and most commodious bathrooms. Many of the smaller rooms have bathrooms attached; and many in the front of the house have balconies. The less expensive rooms are at the back of the house, but are equally convenient and are furnished with the same attention to detail and comfort. Various other staircases in addition to the chief one lead to the upper floors, the roof space being devoted to the model linen room, laundry and ironing rooms, and other offices.

The managing director of the Palace Hotels Co. is Mr. Springer, whose Egyptian experience is of long standing and to whose energy and capacity the success of many of our hotels is due. His present connection with "Al Hayat," Helouan, is well known, and to it may be attributed the fact that this sanatorium is the finest and best ordered in the East. The manager of the Savoy Palace is Mr. Anber, who has been Mr. Springer's right hand for many years, and who is eminently capable of making this new hotel a great success.

As before remarked, the doors of the Savoy Hotel are to be opened to the public to-morrow; and already rooms have been booked in advance. There will be a reception during the afternoon, when a most complete and well stocked buffet will be found in the winter garden; and in the evening a banquet will be given to the directors and those who are connected with the management.

There are rumours of other hotels to be erected shortly in Alexandria; but we can safely assert that they will find it difficult to provide better comfort or accommodation than what are now obtainable at the Savoy Palace.

By kind permission of Lieut.-Colonel Chapman and officers, the band of the 1st Royal Dublin Fusiliers will play the following programme of music to-morrow:—

Khedivial Hymn.  
God Save the King.  
March—Les Gamins de Paris—Berger.

Overture—Mirella—Gounod.  
Valse—Gold and Silver—Léhar.

A. FAWCETT, Bandmaster.

## SAVOY HOTEL.

## ANNUAL FANCY DRESS BALL.

There was a huge crowd at the Savoy on Tuesday night, and naturally a great number of the pretty coquettes in dress which had been worn at Ghezireh last week made a second appearance. There were also a good number of people who preferred paying the fine to donning the mo'ley, and in fact the greater proportion of the men present were in conventional attire. But it was a most successful ball nevertheless; and perhaps the gay frocks of the ladies were all the more noticeable among the more sombre clothes of the men. Miss Hemming never looked better than on this occasion when she was attired as a Snowflake, her short frock of shimmering silver being rightly flaked with snowflakes and with a few touches of scarlet-berried holly about the décolletage. Mrs. Wilson, too, could not have happened on a happier costume than that inspired by the period of 1830. Her straight frock of satin just falling to her ankles displayed her heelless sandalled shoes, her hair was piled in masses of curls at the top of her head, and decorated by a waving mass of paradise plumes, while across her shoulders she wore the regulation scarf so beloved by the heroines of the day. Miss Fox was wearing a delightful tiny blue silk Directoire coat with long tails over a lace frock, her big blue bonnet bearing many feathers and bands of velvet. Lady Vivian made a very beautiful Marie Antoinette in black velvet with black feathers and chiffon in her powdered hair; and Miss de Bilinski was a most effective Marguerite de Valois in black with beautiful lace, a small black velvet capote outlined with pearls upon her head with a long white veil hanging from it. Miss Blythe was a good representation of a Gibson girl with scarce a variation to her ordinary toilette, while two splendid poppy dresses were worn by Mrs. Rigden and Miss Felix Brown. Miss Birkett as a Danish lady of 1820 wore a curious straight and somewhat narrow tunic of crimson velvet over a handsome brocade underdress, with an ornate cap of velvet to match. Miss O. Soames was in a white Greek dress, the draperies confined by bands of pearl embroidery and with many rows of pearls threaded through her hair. Mrs. Nolan was quite lovely as a Circassian lady, the lower half of her face lightly veiled with a transparent chiffon; and Miss Moore looked extremely well in a black carnival dress outlined with bands of blue. Miss Grafton as Monte Carlo bore upon her frock all the symbols dear to the heart of the gambler, and Miss Carey was again attired as a Toreador, the big velvet hat, many gold ornaments and scarlet touches being especially becoming to her dark beauty. Miss Bullock made a most effective Carnival in scarlet, while the two Misses Cole were dainty milkmaids. Mr. Sacher made a great sensation on his appearance in domino and ya-hmak, and Mr. Randolph Berens wore a most handsome and effective Court dress with blue satin coat and tricorn hat and many ruffles at wrist and neck. Mr. Whitworth Jones was an awe-inspiring sheikh. Capt. Adams, in checks of abnormal size, belonged to the sporting fraternity of bookies. Mr. G. Bennett made a very gallant courtier in wig and silken garments, embroidered waistcoat and ruffles, and the three soldiers of the Indian army were magnificent in their enormous turbans, etc.

Among others we noticed the Count and Countess Hollenstein, the latter wonderfully gowned as usual, the Earl and Countess Carnarvon, the Countess being in black. Lady Clark, wearing a magnificent dog collar of diamonds; Lady Bartlett, Major General and Mrs. Bullock, Mr. and Mrs. Farnell, Mrs. and Miss Brooks, Major and Mrs. Watson, Mrs. Zervodachi in a wonderful toilette, Mr. and Mrs. Charlton, Capt. and Mrs. Bayley, Capt. and Mrs. Rome, with Miss Blyth in black velvet, Mr. and Mrs. Scott-Dalglish, Miss McKellar, poudrée, Miss Molloy, also poudrée, Mr. and Miss Pooley, Miss Rees as a bygone Carnival, Mr. D. Rees as a Swiss mountaineer, Miss Tuck, the two Misses Davidson, Miss E. de Bilinski in an empire dress, Miss Bennett in a Greek costume, the two Misses Wahn, one as Carmen and one in Japanese costume, Miss Gee in a very good Chinese dress, Miss James, the Messrs. de Bilinski, one in a court suit and the other in a pink coat, Mr. H. O. Bennett as a Neapolitan fishing lad, Mrs. Duckett as Mary Queen of Scots, Mrs. Benda, poudrée, Major and Mrs. Wynne, Mrs. Peckett as a very effective Turkish Sultana, Mrs. Charlton as an old French picture, Miss Morritt, Mrs. Drummond Hay as Comtesse de Montessor, Mrs. Hornblower as old lace, Mrs. Wilding delightful as La Camargo, Mrs. C. Rowlett an Italian countess, the Misses Morcom as school girl and Dutch peasant respectively, Miss Vernon as Autumn, Mrs. Elliot Smith as Mme Sans Gêne, M. and Mme Bitter, Dr. and Mrs. Armstrong, Mrs. Norah de Vahl, whose cherry dress of last week was enhanced on Tuesday by the addition of a becoming wig, Mr. Bolland as a white-clad chasseur about with spoons and ladle, etc., etc.

We regret to hear of the illness of Princess Nazli Hanem, whose many friends will join us in wishing her Highness a speedy and thorough recovery.

The Duke of Brunswick, with Slatin Pasha, went as far as Reek on his recent tour up the White Nile, and visited Abba Island. On their way back to Khartoum they stopped at Daeim, where they had a warm reception. On Monday week they visited Soba.

Lord Cromer is expected to arrive in Cairo next week on his return from Upper Egypt.

Sir Vincent Corbett, the Financial Adviser, has returned to Cairo from Upper Egypt.

The Duke and Duchess of Manchester are due back in England this week from Egypt.

The Earl and Countess of Dayray left London on Friday last for Marseilles on their way to Egypt.

Lord Horace Davey, of Farnhurst, K.C., whose death is announced by Renter to-day, was the son of Mr. Peter Davey, of Torquay, and formerly of Horton, Buckinghamshire, by marriage with Caroline Emma, daughter of the late Rev. Wm. Pace, rector of Rumpsham and Wrazell, Dorsetshire. He was born in the year 1833, and was educated at Rugby, from which school he was elected to a Scholarship at University College, Oxford. He obtained a double first-class on taking his degree, and was subsequently chosen a Fellow of his college. He was also Senior Mathematical Scholar and Eton Law Scholar. He was called to the Bar at Lincoln's Inn in January, 1861, and soon rose to eminence as an equity lawyer. He obtained a silk gown in 1875. He sat for Christchurch, Hants, from 1880 down 1885, when he was defeated. He was Solicitor-General for a few months in 1888 under Mr. Gladstone's Administration, and was elected member for Stock-on-on-Tees, Dec. 21, 1892. But in 1892 he was not re-elected. In the trial of the Bishop of Lincoln he was counsel for the prosecution, and in the Barkeley Peerage Case (1891) he was leading counsel. In Sept. 1891, he was appointed a Lord Justice of Appeal in the place of Lord Justice Bowen, and was afterwards created a peer with the title of Lord Davey of Farnhurst. He was the father of the Hon. A.J. Davey, one of the directors of the unfortunate Société Générale des Sucreries et de la Raffinerie d'Egypte, who was until lately a prominent member of the English colony at Cairo.

Count Bailet-Lator and his daughter were among the passengers who left by the Khedivial S.S. Ismailia for the Piræus on Wednesday.

Mr. J. D. Heaton-Armstrong, the son of Mr. Heaton-Armstrong, M.P., of the Corporation of Western Egypt, and cousin of Johnson Pasha, while out with Earl Fitzwilliam's Honours yesterday week, met with a rather serious accident. His horse refused to take a fence and, falling, rolled on him. Mr. Heaton-Armstrong was taken to the Hantington County Hospital, where he is reported to be progressing favourably. Mr. Heaton-Armstrong, M.P., is at present in Cairo.

Mr. Leo Weinthal, managing director of the African World, Limited, is due at Port Said on Wednesday from England by the S.S. Himalaya.

## WRECK OF S.S. BERLIN.

141 PERSONS DROWNED.—ONE SAVED.

## VESSEL BREAKS IN TWO.

LONDON, February 21. The Great Eastern Railway Company's steamer Berlin, from Harwich for the Hook of Holland, has been wrecked off the Hook. 141 persons have been drowned, including 91 passengers. (Reuter)

LONDON, February 21. The Berlin was trying to enter the harbour when she was driven on the northern jetty and broke in two. The forepart sank. The passengers and crew gathered on the aft portion, which drifted on to a sandbank, and were washed off. Among the drowned was Mr. Arthur Herbert, King's Messenger, and 19 members of the chorus of the German opera company which had just finished the season at Covent Garden.

The lifeboat made repeated futile endeavours to reach the Berlin. Captain Parkinson, of the Hold Line, who was a passenger, is the sole survivor. He says he has never seen such a sight. When the vessel broke up he seized a piece of timber. The shrieks around him were terrible. He remained for an hour in the icy water constantly striking against corpses till he was picked up by a lifeboat. The majority of the dead are German, Dutch, and Belgian. Mr. Herbert bore despatches for the Courts of St. Petersburg and Teheran. (Reuter)

ROTTERDAM, February 21. The steamer Berlin, plying between here and England, has sunk at the entrance to Rotterdam. 150 persons were drowned. (H.)

## EDUCATION IN EGYPT.

## A SUGGESTED EDUCATION TAX.

While there can unfortunately, says the "Globe," be no doubt that native unrest is still rife in Egypt, there are many who look for its removal in the spread of popular education. We sympathise with this feeling, although we cannot altogether share its optimism. Education is not a universal panacea that cures all diseases; and its success in India has not been as great as its promoters hoped. If it has not removed the evil in Asia, it will probably not do more in Africa, although experience may teach us to avoid certain mistakes in Egypt that were unwittingly made in India. However that may be, it can be taken as axiomatic that the educational system of Egypt will be improved and extended as soon as the Government is able to afford the expense. At present it is a question of ways and means. The suggestion has been made in England that the foreign bondholders should provide the funds, but this is obviously untenable. If it had not been capital, Egypt could not have emerged from bankruptcy to her present material prosperity; and to mulct the bondholders would simply mean that they would be penalised for their good deeds. The immediate effect on the bonds would be disastrous, and no future loan that it may be necessary to issue would have any chance of being subscribed. The honest course is evident. If the people are able to bear it, a small education tax should be imposed in Egypt itself.

## ENGLAND AND EGYPT.

"Senex" sends the following to the "Spectator":—A few days ago I received a letter from a young relative who is in the service of the Egyptian Government. He writes from some place on the White Nile. "The Sirdar honoured this district with a visit on the 11th, and told me that he was very pleased with what he had seen. We certainly gave him a great reception. Some ten thousand yelling natives—many mounted on camels, others on most beautiful horses—certainly made an imposing sight. I led the three hundred horsemen of our own neighbourhood at the gallop, armed with a long spear, right up to the dais on which the Sirdar was standing." A year or so ago this young fellow was working for the Oriental Languages School at Oxford. I have no wish to exaggerate the importance of such things, but they give me a comforting conviction that our race is not by any means "played out."

## LETTER TO THE EDITOR.

We do not hold ourselves responsible for the opinions expressed by our correspondents, but we wish, in a spirit of fair play to all, to permit—within certain necessary limits—free discussion.

## THE BOURSE REGULATIONS.

TO THE EDITOR OF THE "EGYPTIAN GAZETTE." Sir,—I hope the Egyptian Government will follow the rule in force on the London Stock Exchange in its new Bourse regulations whereby every member of the Stock Exchange, however long may have been his connection with the House, has to formally apply every year for re-election. The system has advantages for by its means a complete directory of Stock Exchange members is compiled from the returns which have to be sent in every March by each member. The forms of application are placed round the markets, in boxes provided for the purposes, and the applicant has to state his private and business addresses, his bankers, telephone number, partner, and whether he carries on business as a broker or a jobber. The member further has to declare that he is "not engaged as principal or clerk in any business other than that of the Stock Exchange, nor is my wife engaged in business, nor am I a member of, or subscriber to, any other institution in which dealings in stocks and shares are carried on." This form is for the use of men already members of the House; candidates seeking admission for the first time have to fill up a rather more elaborate document.—Yours truly,

## NOTES FROM CYPRUS.

## OPENING OF LEGISLATIVE COUNCIL.

(FROM OUR CORRESPONDENT.)

Larnaca, February 8. On Tuesday, the 5th, His Excellency the High Commissioner opened the first session of the newly elected Legislative Council. The proceedings followed the usual lines and occupied only some 20 minutes. The Election petitions are still before the Courts, and it remains to be seen whether any changes in the composition of the Council will be made as a result of the judicial proceedings.

The matters of principal interest referred to in the opening speech were:—  
That the railway is receiving a very fair share of popular support, and that it is possible that before long further extension may take place.

That a scheme for improving the landing arrangements at Larnaca, estimated to cost £11,500, has received the approval of the Home Government; also that a project for the improvement of the port of Paphos, at an estimated cost of £12,500, is under consideration, and may later on be submitted to the Legislative Council.

Some small increases in the salaries of certain officials are foreshadowed, and proposals for a somewhat more liberal provision for the assistance of the Agricultural Department are also to be submitted.

His Excellency holds that the financial position of the country is improving and that it is at the present time more sound and more full of hopeful promise than it has been in modern times.

## FESTIVITIES IN NICOSIA.

The week preceding Lent has been full of festivities in Nicosia. For some time past a large company numbering over 40 persons had been busy rehearsing "The Geisha," and on the 6th and 7th instant we had the pleasure of witnessing the performances in the Papadopoulos Theatre, Nicosia. It may at once be said that the success was complete both from the artistic and financial standpoints. The receipts for the two nights, including one liberal donation, amounted to about £80—far more than has been taken on similar previous occasions, and, after all expenses are paid, a sum of about £10 is likely to be handed over to the Island Hospital Fund.

Many difficulties had to be overcome since the project was first started on Troodos last summer; not the least serious being the withdrawal at almost the last moment of the principal actor and actress through illness. Much sympathy has been felt for the latter, who has been very dangerously ill and still gives cause for much anxiety.

Meanwhile the choruses and lyrics, with which the play abounds, were steadily practised and within a fortnight of the date of the performance there appeared on the scene a lady who very kindly undertook the unenviable task of evolving order out of chaos. As if by a magic touch, or rather by skillful and most efficient coaching, aided by a very thorough acquaintance with the play, this lady appears to have quickly imparted life and action to the performers, and the latter working with a hearty good will, smooth water was soon attained. The whole caste seems to have worked *con amore*, and although the claims upon the leisure time of some of the busier members of the company must have been exacting, they were loyally met. The house on each night was crowded with enthusiastic audiences, the leading songs were encored, bouquets were showered on the stage, and at the close the principals were called before the curtain. There was not a dull moment in the play, and a word of special praise is due to the four principal girls, who both looked most charming and did their songs and dances with remarkable precision and grace.

His Excellency was unfortunately prevented by indisposition from attending the first performance but gave general satisfaction by being present on the second night.

After the performance on the 7th nearly all the company and several other friends were invited to supper at the house of Mr. Rees Davies, who had been partly instrumental in carrying the whole thing through. A presentation was then made to the two ladies who had been responsible for the acting and staging and the music, and to whose untiring efforts the undoubted success was mainly due.

## THE LATE DEAN BUTCHER.

TO THE EDITOR OF THE "EGYPTIAN GAZETTE." Mr. Editor,—I venture to think the following lines will be of interest to the many readers of your paper, who like myself were friends of the late Dean Butcher; they end a letter I received from him in the beginning of December, 1906, about two weeks before his death. His wishes were fulfilled, I think—Your obedient servant,

VIOLET DE MALORTIE.

Oxford.

AT LAST.

When on my day of life the night is falling,  
And in the winds, from unsmiling spaces blown,  
I hear far voices out of darkness calling,  
My feet to paths unknown.

Thou who hast made my home of life so pleasant,  
Leave not its tenant when its walls decay,  
O Love Divine, O helper ever present,  
Be Thou my strength and stay.

Be near me when all else from me is drifting,  
Earth sky, home pictures, lays of shade and shine  
And kindly faces to my own uplifting  
The Love which answers mine.

The game was exceptionally fast and keen. The Greenjackets won by 2 goals to love. There were two nasty looking accidents, with, we are happy to say, no bad results.

The final will be played on Saturday between the Greenjackets and the Coldstream Guards No. 1 team. We look forward to a good match.

New Life and Vigour in

## DR. WILLIAMS' PINK PILLS.

"Sometimes when at work I had to drop my tools suddenly, and give up because of acute pains which seized me in the back and spine. The agony of these attacks made me feel quite sick and faint."

The speaker was Mr. Thomas Halcrow, a well-known housefitter, who, when interviewed at his home, 26, Sunderland-street, Newcastle, stated:—

"With these terribly acute attacks came a weakness that seemed to deprive me of all strength in my spine, and made it

## Difficult to Bend My Back,

and impossible to hold myself erect. I stooped more and more daily, and a severe internal weakness caused me further pain.

"My food lost all taste, and my appetite dwindled away until I lost strength for want of nourishment. Then the little food I forced myself to eat punished me so that I groaned with indigestion. A chronic dizziness settled in my head, while black specks danced before my eyes."

"I grew alarmed at the increasing pain in my back, and I would crawl about half bent up, with a perspiration of agony on my forehead."

"Sometimes I dozed, but never got sound sleep; when asleep I was haunted by horrible dreams. In the struggle to regain health I followed the advice of good physicians, trying all the time to continue my work, but it was soon an impossibility."

"My nerves gave way, and I worried terribly. Little things irritated me, while my hands were always shaky. Medical men said that my kidneys and nerves were seriously deranged. They gave me medicine, but I could trace no improvement."

## Every Step Wring a Groan,

from me. If I tried to straighten myself lighting pains shot across my back, the hip joints, and spine."

"I was in the last stage of physical weakness, with my nerves completely shattered. One day a customer insisted that I should try Dr. Williams' Pink Pills for Pale People. In fact, he actually bought a box of these pills for me. I was impressed by his kindness, and followed the directions."

"Before long I felt some relief. My pains actually decreased while my strength was steadily on the increase. I was walking with ease, and more upright. My breathing was much better, and my head free from aches and worry. A load seemed to have been lifted off my back."

"My appetite returned. The pains finally disappeared; I took exercise, and every box of Dr. Williams' Pink Pills seemed to infuse new life into me. From a worn, bent, and apparently old man, I straightened out to my full height, and, under the stimulating properties of this medicine, I became and felt ten years younger."

**Erect and Strong Once More.**  
Now I work hard from morning till night, full of life and vigour, thanks to Dr. Williams' Pink Pills."

As a nerve and spinal tonic for men broken in strength, and a remedy that actually makes Good Red Blood, so fortifying the system against disease, Dr. Williams' Pink Pills for Pale People have won a great reputation. They have cured Debility, Indigestion, Anemia, Eczeema, Rheumatism, Sciatica, Neuralgia, St. Vitus' Dance, and Paralysis; for ailing women they are indispensable.

## SOCIÉTÉS ANONYMES

## LES DROITS DE LA FEMME ET LES STATUTS

Une Dame, devenue propriétaire, par voie d'héritage, d'un certain nombre d'actions d'une société anonyme en Allemagne, voulut prendre part à l'Assemblée Générale de cette Société, mais elle n'y fut point admise, la Société lui opposant une disposition des Statuts qui ne permettait l'accès aux Assemblées qu'aux personnes du sexe masculin.

La Dame, consciente de ses droits, considéra cette disposition comme arbitraire et injuste. Elle résolut donc d'actionner en justice la Société dont les règlements fondamentaux portaient on si grave préjudice à ses intérêts. Le Tribunal la déboute. Elle interjeta appel, mais en vain : l'appel confirma le premier jugement.

La Dame ne se tint pas pour battue, elle porta son cas devant la Cour Suprême qui reconnut enfin la justice de ses réclamations et déclara nul l'article des Statuts qui niait au sexe faible l'admission aux Assemblées, article qu'elle considérait à juste titre, comme contraire à l'esprit de la fameuse loi de 1900, qui accordait aux femmes les mêmes droits qu'aux hommes pour la gestion de leur fortune.

## BULLETIN DE LA BOURSE

(Aujourd'hui à midi et demie.)

A part de rares exceptions, c'est toujours la faiblesse qui prévaut. Comme hier, l'ouverture a été une vraie débâcle; plus tard on s'est un peu ressaisi, mais on n'en clôture pas moins à un niveau généralement inférieur à celui de la veille.

C'est la Levico, l'Arditi, la Nile Land, les Bâtiments et les Building Lands qui ont décliné la plupart des transactions.

Après avoir débuté à 19/32, la Levico finit à 1 1/4; en sens inverse l'Arditi, après un mauvais début, s'améliore à 17/32. La Lunghe s'inscrit à 1 1/4 et les Ritz à 129/32.

La Ramleh reprend à 63/16 et la Nile Land s'avance à 24.

De 2 3/8 où ils étaient tombés au commencement de la séance, les Estates remontent peu à peu à 2 1/2 en clôture.

En revanche, nombre de valeurs sont en réaction : l'Agricole tombe à 9/34, la National Bank à 27/34, la Delta Light à 11 7/16, la Cassa di Sconto nouvelle à 264, le Comptoir à 7 3/8 et l'Union Foncière à 6.

Inutile de dire qu'aux prix actuels la plupart de ces valeurs sont à recommander comme placement, surtout l'Agricole et l'Union Foncière.

## Circulaire H. De Vries et Boutigny

## NOTES ET CRITIQUES

Le Caire, Jeudi 21 Février 1907.

Le taux de l'escompte libre à Londres reste invarié à 3 3/4 pour cent. Au Stock Exchange, le Consolidé anglais a encore rétrogradé hier de 1/8 à 86 5/8. L'Unifiée est demeurée inébranlable à 102 3/4. La National Bank a perdu 1/4 à 98 1/8, la Delta 1/8 à 17 3/8 et la Delta Light 1/4 à 11 1/2. Seule l'Agricole a gagné 1/8 à 9 7/8.

A Paris, le Crédit Foncier est coté 759, ex-coupon évidemment, ce qui représente une reprise de 3 francs. La Banque d'Athènes s'est maintenue à 135.

Ici, le marché a pré-été, ce matin, le même aspect désemparé qu'hier, avec accentuation de la tendance à la réaction sur les valeurs qui ont été traitées. Aux causes spéciales que nous avons déjà exposées il faut ajouter l'approche de la fin de mois qui provoque des liquidations hâtives, par crainte de plus bas prix, ce qui pèse lourdement sur les cours. Heureusement, la crise semble, de ce chef même, avoir atteint son apogée, et grâce à une position de place allégée, une reprise pourrait aisément se produire, plus vite qu'on ne le pense. Toujours est-il que c'est la première fois, par suite de la véritable débâcle d'émotions d'affaires nouvelles à laquelle nous assistons, que l'on a vu un tel désarroi se produire en Bourse juste en la période la plus favorable de la saison active, à la veille du paiement des coupons, à la fin de la campagne cotonnière et au retour habituel de l'aisance monétaire. Toutes les espérances basées sur une année exceptionnellement prospère ont été ainsi déçues par suite de l'effrayant drainage d'argent opéré sans interruption depuis le mois de Novembre dernier et qui menace de se prolonger en Mars et en Avril, à moins que les souscripteurs, désemparés, ne se montrent décidément récalcitrants.

Dans le compartiment des Banques, la National et l'Agricole, délaissées, sont restées à leurs prix d'hier. La Cassa di Sconto a faibli à 273-274, la Banque d'Orient à 133-134 et la part Société Générale Egyptienne à 93.

Les Entreprises Immobilières et Travaux ont été ramenées à 8 3/4 et leur part à 213-214. L'Espérance a faibli à 3 et sa part à 202. L'Expresse Nile a clôturé à 5 1/2 l'action ancienne et 5 1/4 la nouvelle; la part a terminé à 275. Les Suburban ont mollis à 6 3/4. L'Anglo American a fléchi à 5 1/8 3/16, les Automobiles à 5 7/16 et leur part à 9 1/2.

Dans le groupe des valeurs hôtelières, les Nungovich ont clôturé plus fermes à 29-29 7/8. Les Egyptian sont restés à 12 3/8. Les Excelsior se sont alourdis à 4 5/16 et le Upper Egypt à 4 5/8-11/16. La part de fondateur National Hotel est remontée à 66.

Parmi les petites valeurs, la Delta Land a elle-même décliné à 4 1/3. Les Abby se sont raffermis à 13 1/6 1/4. Les New Egyptian ont fléchi à 23 sh. 9-29 sh., les Markets à 28 sh. 9, les Salt and Soda à 21 sh. 6, les Estates à 2 7/16 et leur part à 23 1/3 3/4, et enfin les Cotton Mills à 5 sh. 3.

"The Egyptian Gazette" d'hier attire l'attention sur un nouveau flot d'émigrations qui menacent le marché égyptien. Les nouvelles Sociétés dont on a déjà annoncé la formation ne constitueraient qu'une petite fraction en comparaison de celles qui sont sur le point de partir tant à Londres que sur place. La "Gazette" ajoute que les promoteurs de ces nouvelles Sociétés paraissent résolus à ne pas attendre, à lancer coûte que coûte leur affaire dans le cours de cette saison.

Nous aimons à croire que la "Gazette" exagère. Dans le cas contraire, étant donné l'état du marché, il serait peut-être opportun de songer à la création d'une ligue ou plutôt à la construction d'une digue contre une nouvelle inondation de titres qui pourrait sérieusement aggraver la crise actuelle.

L'assemblée générale extraordinaire des George Nungovich Hôtels est fixée au 8 Mars prochain. Les actionnaires seront invités à ratifier la vente du Savoy Hotel et à donner au conseil les pouvoirs nécessaires pour vendre le Grand Continental Hotel ou tous autres immeubles de la Société.

Ajoutons à ce propos que l'Egyptian Estates Co. dément formellement la nouvelle suivant laquelle un droit de préemption aurait été exercé à l'encontre de l'achat de Savoy Hotel conclue par l'entremise de cette Société.

## Carnet de l'actionnaire.

Les actionnaires de la Société des Baux du Caire sont convoqués en assemblée générale ordinaire pour le 15 Mars prochain, à 3 h. 30 p.m. au siège social au Caire. A l'ordre du jour : rapport du conseil; approbation des comptes de l'exercice 1906; fixation des dividendes à distribuer; nominations statutaires, etc.

L'assemblée générale ordinaire de la Compagnie Frigorifique d'Egypte est fixée au 15 Mars prochain, à 4 h. p.m., au siège social au Caire. A l'ordre du jour : rapport du conseil; approbation des comptes de l'exercice 1906; fixation du dividende et pouvoirs à donner au conseil d'administration pour la création et l'émission d'obligations avec ou sans garantie hypothécaire ou autre.

Une assemblée générale statutaire de la United Egyptian Lands Co est convoquée à Londres pour le 26 Février courant. Cette réunion sera suivie d'une assemblée générale extraordinaire dont l'objet est de porter le capital social de £ 500,000 à £ 1,000,000 par la création de 50,000 actions ordinaires nouvelles.

The Egyptian Gazette Series  
is the most artistic collection to be found  
in Egypt.

## TO OUR VISITORS.

The Egyptian Gazette has much pleasure in presenting to its subscribers the accompanying description of some of the many interesting routes by which they may travel homewards. Great care has been taken to arrange them as accurately and concisely as possible, and it will be found that none of them are fraught with difficulty. In choosing the route home there are several things to be considered. To begin with there is the difference in climate between Egypt and the various points at which you may arrive in Europe.

## Vade Mecum for the Homeward Bound.

## PICTURE POST CARDS.

"The Egyptian Gazette" Series  
is the most artistic collection to be found  
in Egypt.

This depends partly upon the month in which you leave Egypt, for Cairo in January may be a little warmer than the Riviera, and possibly not so warm as Sicily, but in March it will be warmer than Rome, and more uniformly warm than many other places in Europe. Many people leave Egypt far too early in the year, for as a rule the weather in April and May is perfect. The warmest place to go to on leaving Egypt is Sicily.

Some will want to take into consideration the number of days to be spent at sea, and we therefore subjoin a list showing the time occupied on each of the various routes between Egypt and the Continent of Europe.

They are as follows:—

The long sea routes—from Port Said or Alexandria to Plymouth, Southampton, London or Liverpool—occupy about 14 days. The short ones are as follows:—	
Port Said or Alexandria to Brindisi	3 days
Alexandria to Messina	3 "
Port Said or Alexandria to Marseilles	5 "
Alexandria to Venice and Trieste	3 1/2 "
Alexandria to Naples	3 "
Port Said to Genoa	3 "
Port Said to Naples	3 "
Alexandria to Constantinople	4 "
Alexandria to Piræus	2 "
Port Said to Gibraltar	7 "

The steamers of the P. & O., North German Lloyd, Orient, and Messageries Maritimes are the largest. The Anchor, British India, Bibby and Henderson Lines are also excellent, and their steamers are largely patronised by travellers to Egypt.

As regards the train journeys from Cairo the shortest is that to Alexandria, without change (8 hours). That to Port Said can now be made without change in 4 1/2 hours.

The least expensive way to England is by the Moss, Papeyanni, Prince, and Westcott lines of steamers from Alexandria to Liverpool. The German Levant line has also good steamers from Alexandria to Hamburg.

The quickest through Continental routes are by P. & O. Brindisi express from Port Said, and the Austrian Lloyd Trieste-Vienna express from Alexandria.

As regards heavy luggage, it must be borne in mind that very little luggage is allowed free on the railways of Europe, but there are several good and responsible forwarding agents in Egypt who undertake at a fixed charge to deliver packages to any address in Europe.

The quickest manner of getting to Europe from Port Said is undoubtedly by the fast Mail Steamers "Osiris" and "Isis" to Brindisi. One of these leaves Port Said every week, as soon as possible after receiving the Indian

mails from the great liner arrived from Bombay.

These small but comfortable ships have enormously powerful engines, and attain a very high rate of speed. They are called the "Ferry boats," having been specially built to carry the British mail from Port Said to Brindisi. If you are going straight through to England you will find the train waiting at Brindisi which will take you to Calais without changing. It has complete arrangements for sleeping and eating on board, and you should arrive in London on the fifth day from leaving Port Said.

## SICILY.

The direct route to Sicily is by the Florio-Rubattino Co.'s steamers, which leave Alexandria weekly for MESSINA, where one takes train to TAORMINA, one of the most charming and popular places on the island. Giardini is the station at which to alight, and the drive up to Taormina is most delightful, occupying about one hour. In and around the town is much to interest the visitor. The theatre is of Greek origin, but restored under the Romans. CATANIA is the starting place for the ascent of Etna, and here also is a fine Cathedral. The Greek, Roman, and Saracenic remains that are found all over the island, are an endless source of pleasure. SYRACUSE has an interesting history, having been a Greek city, which was designed by Demosthenes in B.C. 413, and taken by the Romans in A.D. 212, when Archimedes was slain—his tomb is to be seen. The cathedral was once an ancient pagan temple. PALERMO, with about 300,000 inhabitants, is the capital of the Island, and enjoys a delightful climate. Much of interest is to be found in this fine city. The Palazzo Reale is of Saracenic origin and close to it the church of S. Giovanni degli Eritimi with its picturesque cloisters. The Cathedral, Museum, Botanic Gardens, Villa Giulia and Royal Park are also worth a visit.

## CENTRAL ITALY.

The fine steamers of the North German Lloyd leave Alexandria every Wednesday during the season for Naples, the voyage being only 3 days.

NAPLES is also reached in 10 hours from Palermo by the Florio-Rubattino Co.'s steamers, which leave daily. One cannot approach Naples or leave it without wishing to explore some of its islands, besides the lovely places on its bay—Castellamare and Sorrento. The small steamer that takes you to Sorrento (you can drive too) will take you on to Capri.

From Naples to ROME is a train journey of but five hours. All who can will devote at least one week to visiting the many historical and interesting portions of the Eternal City, whose charms and beauties are too well-known to need comment here.

Leaving the Eternal City with much regret, a railway journey of five hours brings you to FLORENCE, where another week can well be spent admiring the City of Flowers and its surrounding country. In Florence itself the churches and galleries are of absorbing interest, whilst the local promenades and excursions should not be omitted. The Cascine is the most attractive and fashionable promenade in Florence, whilst the Viale dei Colli, one of the finest walks in Europe, opened 35 years ago, goes winding up through the hills a distance of four miles. The most delightful excursion outside Florence is that to Valmadrera, with its Monastery 3,300 feet above the sea level. This is made first by ordinary train from Florence to St. Elia, thence by cog-wheel railway to Saltino. The ascent through groves of oaks takes an hour, and most striking panoramas are unfolded to view.

PISA is easily reached from Florence in about 2 hours; here there is a fine Cathedral and the Leaning Tower. A stay of at least one night should if possible be made in order to enjoy the view from the Campanile at sunset. VIAREGGIO. One of the most delightful places on the Italian Riviera near Pisa and on the main line from Rome to Genoa. It is a very convenient half-way house between Egypt and England, and where living is reasonable and the air and surroundings exceptionally good.

## NORTHERN ITALY.

GENOA (La Superba).—The most picturesque and interesting city in Italy, with the record of having one of the lowest death averages of European cities and a phenomenally equable temperature—warm in winter and deliciously cool breezes from the surrounding mountains and the Mediterranean in summer.

The patriarchal home of Italy's most ancient nobility, whose palaces, gardens, and famous collections of statuary, frescoes and paintings, are a constant delight to thousands of travellers who annually sojourn in Genoa. Then there are the superbly decorated medieval churches containing exquisite marble columns and historical paintings, and the incomparable Campo Santa filled with its wonderful tombs.

From Genoa to Milan is a matter of only three hours by rail.

MILAN is a good centre for Northern Italy before making the tour of the Lakes. The Cathedral is the principal attraction, with its beautiful windows illustrating the History of the Bible. The public gardens and the monumental cemetery are also worth a visit.

Between Bologna and Milan and only an hour and a half from Milan is SALSOMAGGIORE, a renowned health resort on account of its thermal springs, change trains at Borgo San Donnino and in half-an-hour you are at Salsomaggiore.

## NORTHERN ITALY (Continued)

## The ITALIAN LAKES.

VENICE is a 5 hours' journey by rail from Milan, and one of the most delightful places imaginable to pass a quiet stay. The total absence of vehicular traffic strikes one as very strange; no horse, cart, carriage or bicycle is to be seen, and yet there is the sound of life at every turn. The approach the Venice from the Adriatic is unlike that of any other seaport. The town seems to be gradually, like Aphrodite, born of the sea, no hills behind, no stretches of rock, but first the tops of Campaniles appear above the horizon, then slowly the whole glittering town rises like a fairy mirage out of the calm lagoon.

Going northwards from Milan you make the tour of the beautiful Italian lakes. COMO, the birthplace of the younger Pliny, is reached in one-and-a-quarter hours by train by way of Monza.

Boats leave Como frequently for the other towns on the lake, which is very beautiful, and the scenery on either side going up the lake is most enchanting. CERNOBIO is a charming spot; then comes Tremozza, Cadenabbia, and Menaggio with the prettily-situated town of Bellagio opposite. The walk from Tremozza along the shore of the lake to Menaggio is most enjoyable. A steam tram runs from Menaggio to Porlezza on Lake Lugano in three-quarters of an hour, then steamer to Lugano in two-and-three-quarter hours.

## SWITZERLAND.

Switzerland, the heart of Europe, has been described as "A cluster of delights and gladdeners."

LUGANO is some 20 miles from Como, and reached by train in one-and-a-half hours. It has a population of 10,000 people and is charmingly situated on the Lake of Lugano, amidst lovely Italian scenery. Aro and it rise M. San Salvatore, M. de Caprino and M. Generoso.

LOCARNO may be reached by rail from Bellinzona in forty minutes. This pretty town, situated at the top of Lake Maggiore, has a mild climate, and is an excellent winter resort. The church Madonna del Sasso, situated above the town, is worth a visit, as it contains interesting paintings, "Entombment" by Ciseri, and "The Flight into Egypt," by Bramantino.

LUCERNE—A striking picture on the Lake of Lucerne facing the Rigi and Pilatus and the snow-clad Alps.

In and around the town the walks are charming, and the excursions to be made from Lucerne by boat, rail, etc., are very numerous. The Lake of Lucerne abounds in delightful excursions, those to the Rigi, Pilatus, Burgstock and Sonnenberg needing a special visit each. Other excursions on the lake can be made by steamer, and the ever-changing scenery on the trip from Lucerne to Fluelen is a source of delight to the lover of nature.

BRUNNEN, charmingly situated on the most beautiful part of the Lake of Lucerne, commands magnificent views of lake and mountain scenery. Along the Lake of Uri from Brunnen to Fluelen runs the famous Aartrasse.

THUN (on the Lake of Thun) half an hour from Berne and one hour from Interlaken. Quiet and quaint; sheltered from winds; just the place to rest and recuperate. Beautiful walks, through woods, and along the lake shore. Kursaal, Concerts, Casino, Races, Tennis, Boating, etc.

THE BERNESE OBERLAND.—INTERLAKEN, a favourite summer resort, and the best centre for making excursions in the Oberland, abounding in fine walks and views. There is a magnificent view of the Jungfrau from the Hoheweg, a fine avenue of walnut trees, the chief resort of visitors. Interlaken is also not far from the famous waterfalls, Giessbach
